

AMERICAN POKER

● This is a classic 'hold and draw' 5 card poker game. At the beginning of the game the player selects a stake and 5 cards are dealt. If this results in a winning hand as described in the upper screen's award panel, the win is given and the game is over. If no win is present, the player is then given the chance to hold any advantageous symbols. The player is then dealt another set of cards to replace the discarded cards and any resultant hand is paid according to the upper award plan. Hold is always offered after a non-held deal of the same stake.

All wins may be gambled on the **POKER GAMBLE**.
